[linkedin.com/in/elifchorghay](https://www.linkedin.com/in/elifchorghay) • <https://github.com/eliftabak>

Frontend-Focused Full-Stack Engineer with 4+ years of experience architecting scalable, high-performance web and mobile applications within the Fintech and E-commerce sectors. Expert in **TypeScript, React, and Next.js**, with a proven track record of integrating **Computer Vision (MediaPipe)** and **WebAssembly (WASM)** to deliver edge-based AI solutions. Specialized in performance optimization, CI/CD automation, and SEO, with a deep focus on building resilient, user-centric architectures. Possess German Blue Card for work authorization.

SKILLS

Tech Stack: JavaScript, TypeScript, React, Next.js, Redux, Node.js, React Native, Express.js, GraphQL, MongoDB, CSS, SCSS/SASS, Tailwind CSS, Bootstrap, Material UI, Cypress, Cucumber, Jest

AI & Computer Vision: MediaPipe, Google Vision Tasks, Face Landmark Detection, WASM (WebAssembly), Digital Image Processing

DevOps & Cloud: AWS, Docker, CircleCI, GitHub Actions, CI/CD workflows, Environment Polyfilling, Local/Hybrid Cloud Storage

Others: Git, Jira, Figma, Strapi CMS, Contentful, EJS, Jinja, MJML, A/B testing, Google Search Console

Languages: Turkish (Fluent), English (Fluent), German (Intermediate)

WORK EXPERIENCE

Personal Leave

Karlsruhe, Germany

Professional Development & Community Contribution

May 2024 – Present

- Enrolled in an intensive German language course (CEFR-based) at EduGlobal in Karlsruhe.
- Architected a full-stack mobile application using React Native and Next.js 16 to perform real-time AI face shape analysis via MediaPipe and WebAssembly (WASM).
- Developed custom Node.js execution environments and shims to bypass browser-dependency constraints in AI libraries, enabling server-side computer vision processing.
- 4X mentor in the Adesso & SistersLab Disaster Solidarity Program, providing remote career and technical guidance to IT professionals.
- Speaker at JavaScript Community Istanbul 2025, presenting on using Cypress + Cucumber for live documentation generation through CI/CD.

Bumper UK

Istanbul, Türkiye

Frontend Developer

February 2023 – May 2024

- Refining the UI/UX of the web app using Next.js, TypeScript, Redux, and Tailwind CSS.
- Restructured the codebase that resulted in 30% decrease in bundle size, faster load times, and enhanced UX.
- Integrated multiple payment methods such as SEPA that boosted transaction completion rates by over 22%.
- Implemented E2E automated tests with Cypress that reduced frontend bugs post-release and reached 80% test coverage.
- Developed a dedicated loan application flow for returning customers to improve UX and user retention.
- Led a successful domain migration with comprehensive SEO planning, ensuring uninterrupted service and maintaining organic traffic performance.
- Built an internal MJML preview tool using Node.js, Express, and EJS, enabling developers to merge base and content templates for faster development and QA.

Akinon

Istanbul, Türkiye

Frontend Developer

November 2020 – January 2023

- Built new front-end features while ensuring code's reusability and adaptability for Lacoste, Sephora, L'occitane, Marks & Spencer, Samsonite, and LC Waikiki.
- Led optimization projects that boosted web loading speed by 20% to ensure scalability for growing user bases.
- Integrated our in-house custom-built CMS into client e-commerce platforms, optimizing product descriptions, metadata, and media for SEO and accessibility.

- Enabled screen reader compatibility for product images by integrating a dynamic alt text within our custom CMS.
- Produced in-depth documentation for web components, partials, and APIs that over 200 developers used as their go-to reference.
- Introduced a CMS feature for marketing teams to manage email content autonomously, integrating MJML rendering for responsive design and cutting developer effort to a minimal maintenance level.

Re:Coded

Full-stack Web Developer

Istanbul, Türkiye

February 2020 – October 2020

- Collaborated with a diverse team to develop and deploy educational platforms, enhancing the learning experience for hundreds of students across Turkey, Iraq, and Yemen.
- Created Jest test cases to ensuring code reliability and the consistent performance of web applications.
- Mitigated software bugs and issues to improve platform stability for users.

Fors Real Estate, Express Group

Sales and Operations Manager

Istanbul, Türkiye

November 2016 – March 2018

- Prepared bespoke training programs for both aviation services and language courses, including end-to-end development of all necessary course materials.
- Managed contract life cycle, including drafting legal documents and negotiating buyer purchase offers.
- Recruited and trained new personnel, ensuring proficiency and operational readiness across office functions.

EDUCATION

Istanbul University (Online)

BSc. Management Information Systems
